

# KAMELIA SALAMEH QUMSIEH

Amman, Jordan | +962 79 125 0207 | kmy2212189@ju.edu.jo

## PROFESSIONAL SUMMARY

Software Engineer with strong skills in scalable backend systems, distributed architectures, and AI-driven applications. Experienced in Java, C#, and Python with focus on high-performance and real-time systems.

## TECHNICAL SKILLS

- 1 Languages: Java, Python, C#, JavaScript, C
- 2 Backend: REST APIs, Distributed Systems, Multithreading
- 3 Frameworks: ASP.NET MVC, Node.js (basic)
- 4 Databases: SQL, PostgreSQL
- 5 Concepts: Data Structures, Algorithms, System Design

## EDUCATION

University of Jordan — B.Sc. Computer Engineering (GPA: 3.75 / 4.0)

## PROJECTS

### AI-Powered Recruitment Matching Engine

- 1 Developed ranking system for matching candidates to jobs
- 2 Simulated AI-based hiring decisions

### Clinical Management System — Java

- 1 Developed a clinical system to manage patient records and appointments
- 2 Implemented secure data handling and efficient database operations
- 3 Designed modular backend using Java and OOP principles

### Graduation Project: AI Emergency Response System

- 1 Designed AI-powered system for emergency response and ambulance dispatch
- 2 Integrated real-time communication and location tracking
- 3 Focused on scalable architecture and real-time decision making
